# SNOW IN MANY WAYS

## SNOWSHOEING

A favourite activity for the whole family in our area.

Much easier than skiing, everyone can have fun very quickly. Walking in the snow becomes quite easy and intuitive.

This contemplative practice allows you to admire the landscape at your own pace.

## SKIING IN FAMILY

Family skiing with an instructor just for you, who will correct and give the right advice to each member of the family? That's the ideal way to enjoy a full-day or half-day ski lesson by the ESF in Vaujany.

**From 160€**

## CURLING

Discover the petanque of the far north. Olympic sport with little known rules, the Vaujany Station offers to test this discipline in the heart of its ice rink, at the Sports & Leisure Centre.

The goal is to place the stones as close as possible to a circular target drawn on the ice; the House.

# SNOW IN MANY WAYS

## TELECADINE

Enjoy a fondue in the gondola and travel in peace as you dine. What could be more original than a panoramic dinner suspended in the air? A new way to enjoy the charms of Vaujany....

## SUNSET SKIING

Meet at 2,800m to enjoy a moment of magic over a tasting of regional products. Take time to admire the breathtaking view of the snow-capped peaks in the golden light. The ski patrollers will accompany you on the descent from the Dôme des Rousses, admiring the sunset.

**20.50€**

## SLEDGE

How can we talk about snow sports without mentioning the traditional, ancestral sledge. This practice known to all still enchants young and old.

There are 2 places where you can practice it in complete safety:

- at the Pôle Sports & Loisirs (depending on snow conditions)

# ADVICES & INFOS

Here are a few safety tips for your little ones to ensure a safe stay in the mountains !

The mountains are a giant playground where you can experience and create memories as a family.

But it's not without its dangers, and there are a few things you should do to make the most of this environment.

## ALTITUDE WITH CHILDREN

Children, and particularly babies, are sensitive to changes in altitude, It is advisable to :

- ride at a very low speed.
- stimulate their swallowing with a dummy, a bottle or a sweet.
- check their reactions and do not hesitate to make «decompression» stops.

## ENJOY THE SUN WHILE PROTECTING YOURSELF

Children's skin and eyes are sensitive to UV rays, so don't forget :

- sun protection factor 50 every 2 hours minimum
- sunglasses, hat, cap...
- Keep your child well hydrated: bottle, water bottle, wet cloth...

## GOOD HABITS TO ADOPT DURING YOUR OUTINGS IN THE MOUNTAINS

- Dress appropriately: high boots, rain gear, warm clothes; the weather changes quickly in the mountains.
- Take enough water and snacks with you.
- Check the weather forecast before you set off on your hike.
- Inform your friends and family or the Tourist Office of your departure and your route.
- Take a map of the paths or an IGN map with you.
- Never set off alone.
- Choose your route according to your level, your physical condition and the weather.
- Do not hesitate to ask for the services of a professional to accompany you.
- Respect nature and don't leave your rubbish behind.
