SNOW IN MANY WAYS

SNOWSHOEING

A favourite activity for the whole family in our area.

Much easier than skiing, everyone can have fun very quickly. Walking in the snow becomes quite easy and intuitive.

This contemplative practice allows you to admire the landscape at your own pace.

SKIING IN FAMILY

Family skiing with an instructor just for you, who will correct and give the right advice to each member of the family ? That's the ideal way to enjoy a full-day or half-day ski lesson by the ESF in Vaujany.

Family offers: Special deals for families are available at the Vaujany ESF ski school.

CURLING

Discover the petanque of the far north. Olympic sport with little known rules, Vaujany offers to test this discipline in the heart of its ice rink, at the Sports & Leisure Centre.

The goal is to place the stones as close as possible to a circular target drawn on the ice; the House.

SNOW IN MANY WAYS

NEW: THE MONTFRAIS FUN SKI TRAIL

Discover « Les Dolines », the new fun ski trail in Montfrais, opening on 5 December 2026! With « The Chamois and Its Emotions » as its theme, this trail is designed for beginners of all ages, offering a fun way to learn to ski with playful features and surprises along the way.

SUNSET SKIING

Meet at 2,800m to enjoy a moment of magic over a tasting of regional products. Take time to admire the breathtaking view of the snow-capped peaks in the golden light. The ski patrollers will accompany you on the descent from the Dôme des Rousses, admiring the sunset.

SLEDGE

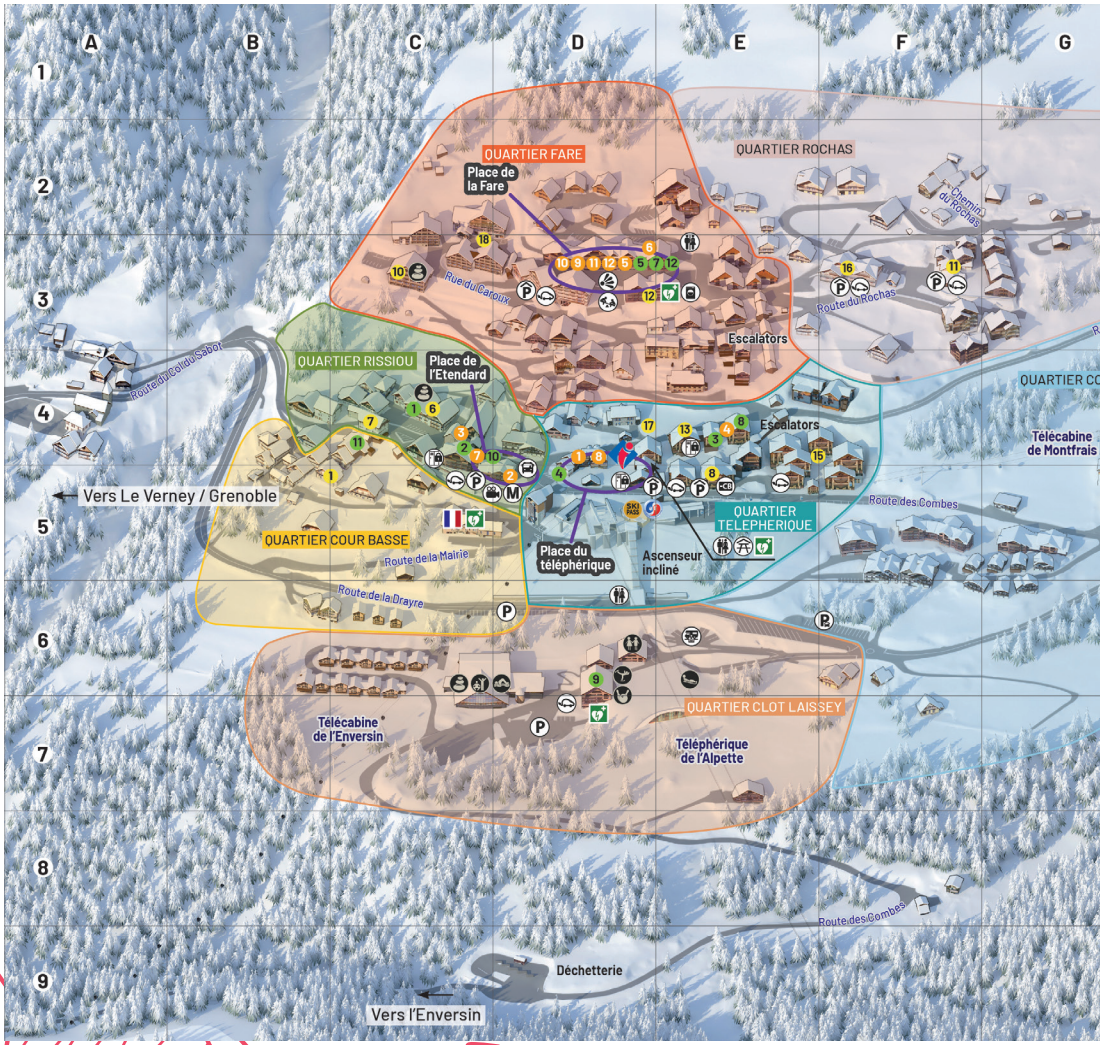

How can we talk about snow sports without mentioning the traditional, ancestral sledge. This practice known to all still enchants young and old a like.

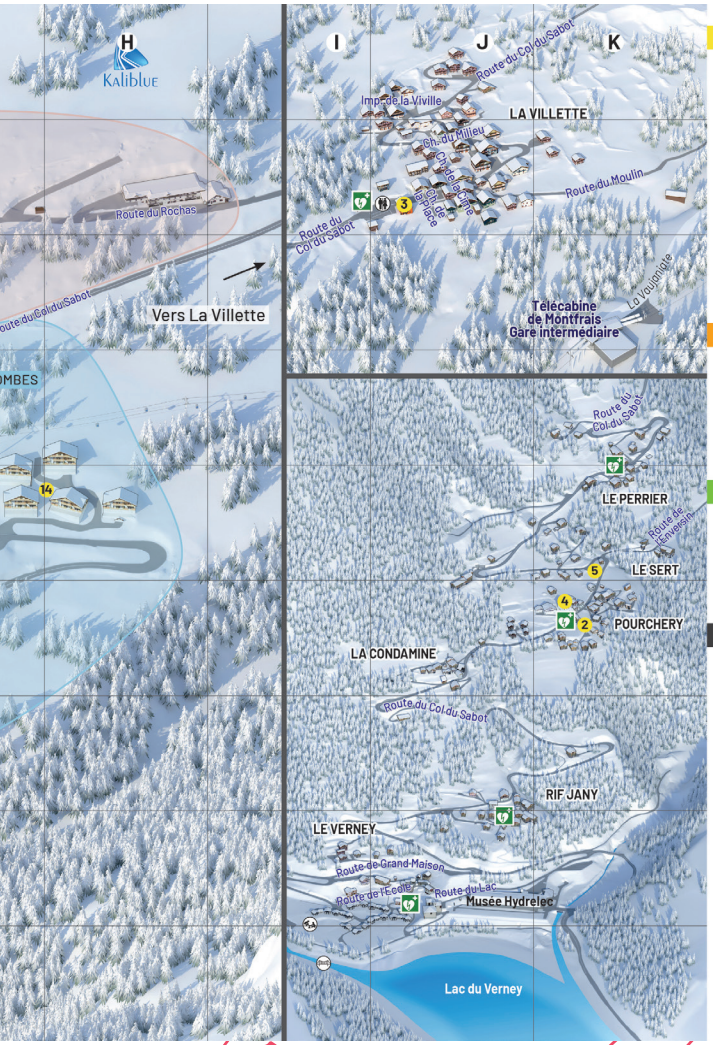

There are 2 places where you can practice it in complete safety:

- at the Pôle Sports & Loisirs (depending on snow conditions)
- at the Alpette (cable car access)

ADVICE & INFO

Here are a few safety tips for your little ones to ensure a safe stay in the mountains !
The mountains are a giant playground where you can experience and create memories as a family.
But it's not without its dangers, and there are a few things you should do to make the most of this environment.

ALTITUDE WITH CHILDREN
Children, and particularly babies, are sensitive to changes in altitude.
It is advisable to :
- ride at a very low speed.
- stimulate their swallowing with a dummy, a bottle or a sweet.
- check their reactions and do not hesitate to make «decompression» stops.

ENJOY THE SUN WHILE PROTECTING YOURSELF
Children's skin and eyes are sensitive to UV rays, so don't forget :
- sun protection factor 50 every 2 hours minimum
- sunglasses, hat, cap...
- Keep your child well hydrated: bottle, water bottle, wet cloth...

GOOD HABITS TO ADOPT DURING YOUR OUTINGS IN THE MOUNTAINS
- Dress appropriately: wear sturdy, high-top footwear, waterproof clothing and warm layers. Weather conditions can change rapidly in the mountains.
- Bring plenty of water and snacks with you.
- Check the weather forecast before setting off on outdoor activities.
- Let someone close to you or the Tourist Office know when you are leaving and which route you plan to take.
- Never go alone.
- Choose your route according to your ability, fitness level and weather conditions.
- Do not hesitate to hire a professional guide to accompany you.
- Respect nature and never leave litter behind.
